-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. The indicated allowability of claims 5-6, 10-11, 15, and 33 is withdrawn in view of the newly discovered reference(s) to each reference in I.D.S. filed 10/12/2004. Rejections based on the newly cited reference(s) follow.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 2-6, 9-16, and 32-40 are rejected under 35 U.S.C. 102(b) as being anticipated by Claude (CH 665955) or Samiotes (EP 0497041) or Lindsey (PCT 9407186). Claude (CH 665955) or Samiotes (EP 0497041) or Lindsey (PCT 9407186) teach an external infusion device for infusing fluid comprising a housing, a reservoir in the housing, a drive system, at least one power supply, one or more electrical elements coupled to the power supply that regulate the rate of the drive system, and a tab that mates with the housing containing at least one electrical element. They teach the tab as being replaceable and may be changed with different tabs, the tab further having a power supply, insertable into an opening in the housing or attachable to the exterior, removable, and is disposable. In each case the tab is clearly connected to the housing and is disposable if one so chooses. It is conceivable that a user may take the tab portion of the construction and utilize it with other models that have been produced therefore being

interchangeable between several "different" infusion devices. (Claim 13) Consequently, the fact that these devices are only usable together means they can only be used in a predetermined number of external infusion devices. (Claim 14) The tab may affect whether or not a fluid path is opened since the fluid distribution is programmably controlled by the tab. The tab may further include at least a portion of the drive system such as the battery power.

### *Conclusion*

4. Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 10/12/2004 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609(B)(2)(i). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
